Subject re gas fracking

Message Body

Dear Ms. Jackson: Please keep up your efforts to protect us from fracking and gas drilling. We own property in Dimock Pa and our world has become a nightmare due to the invasion, aided and abetted by the political apparatus in Pa, of the gas companies. I will not go into all the dangers here, it would take too long. Suffice it to say, we are out here, we need you and do not cave in to those who would deny the need of control of gas companies. **Ex. 6 - Personal Privacy**
